

Pluristem Therapeutics to Host Key Opinion Leader Call on its Acute Radiation Syndrome and Hematological Deficiencies Programs

HAIFA, Israel, August 21, 2019 - [Pluristem Therapeutics Inc.](#) (Nasdaq:PSTI) (TASE:PSTI), a leading regenerative medicine company developing novel placenta-based cell therapy products, today announced that the company will host a live Key Opinion Leader (KOL) call on its hematological programs on September 16, 2019.

The call will feature presentations by KOLs and Pluristem's management who will explain and discuss the status of the company's radiation programs with the U.S government, including an overview of recent Department of Defense (DoD) radiation data, potential markets and expected milestones. In addition, KOLs will discuss findings from Pluristem's ongoing clinical study in hematological deficiencies, as well as opportunities and future product development. A detailed list of participating KOLs will be provided closer to the date of the event.

This event is intended for institutional investors, sell-side analysts, investment bankers, and business development professionals. Pluristem will release a summary following the call.

About Pluristem Therapeutics

Pluristem Therapeutics Inc. is a leading regenerative medicine company developing novel placenta-based cell therapy product candidates. The Company has reported robust clinical trial data in multiple indications for its patented PLX cell product candidates and is currently conducting late stage clinical trials in several indications. PLX cell product candidates are believed to release a range of therapeutic proteins in response to inflammation, ischemia, muscle trauma, hematological disorders and radiation damage. The cells are grown using the Company's proprietary three-dimensional expansion technology and can be administered to patients off-the-shelf, without tissue matching. Pluristem has a strong intellectual property position; a Company-owned and operated GMP-certified manufacturing and research facility; strategic relationships with major research institutions; and a seasoned management team.
